ARTHUR HERBERT.

We propose commencing our sale to-day, Monday, the 19th of December, and continuing from day to day until the 21st of January, so that we may have ample time to take an inventory of stock, &c., previous to the first of February. Purchasers may rely on obtaining any article in our stock at precisely what it is marked to cost us; no more will be asked, and no less will be taken. All packages will be delivered promptly on the

morning after the day of sale.

During the time we are selling at cost we shall make no deduction for eash, as our terms will, of course, be eash without discount. We will endeavor to give every attention in our power to purchasers, and we only ask in return that they will facilitate our sales as much as possi-ble by buying all they can of us, and in as short a space of time as they can conveniently do it. We deem it almost unnecessary to state that we keep on hand one of the largest stocks of SILKS, ROBES, MERINOS, MOUSELINES, VELVETS.

The above articles being of their own direct importation, they are enabled to offer them at as low rates as they can be had in any market in the aug 15-eotf

WE WOULD CALL THE ATTENTION OF GUANO Dealers, Planters, and Farmers, to GUANO Dealers, Planters, and Farmers, to he article which we have on hand, and for sale, at Thirty per cent. less than Peruvian Guano, and which we claim to be superior to any Guano or Fertilizer ever imported or manufactured in this country. This GUANO is imported by WM. H. WEBB, of New York, from Jarvis' and Bakers' Islands, in the "South Pacific Ocean," and is sold genuine and pure as imported. It has been satis-work, some among them might make some factorily tested by many of our prominent Farmers, and analyzed by the most eminent and popular Agricultural Chemists, and found to contain (as will be seen by our circulars) a large per cent. of BONE PHOSPHATE OF LIME,

PHOSPHORIC ACID, And other animal organic matter, yielding ammo his sufficient to produce immediate abundant crops, Lesides substantially enriching the soil. It can be freely used without danger of burning the seed or plant by coming in contact with it, as is the case with some other Pertilipera; retaining a great degree of moisture, it causes the plant to grow in healthy condition, and as experience has proved, FREE OF INSECTS. For orders in any quantity (which will be prompt-

ly attended to.) or pamphlets containing full par-ticulars of analyses and tests of Farmers, apply to JOHN B. SARDY, Agent, No. 58 South street, cor. of Wall street, N. Y. The undersigned have been appointed Agents or the sale of this GUANO in Alexandria, and and have a cargo now on hand. WM. H. FOWLE & SON,

Baltimore, sep 20-dly WORCESTERS PIANOS. From the New York Commercial Advertiser, November 17th, 1859:—"For the better part of a generation they have been constantly before the public, all of them, old and new, proving, by their stability and constancy, the skill with which they are constructed. For durability of tone, for evenness and uni-formity of work, and for excellence of frames, these PIANOS may well challenge competition. We know instruments of Mr. Worsestor's turn out, that have borne the thumping of fifteen years, and remain as perfect in tone and in build as in their first estate. The number made at this Pactory is largely increased from year to year." I am sole Agent in Alexandria, for the above PIANOS, and will furnish any number at Factory prices, 5 per ct. off for CASH, or at six months for approved negotiable paper, and wankast every Instrument. Feeling perfectly satisfied that a better PIANO cannot be had in the United States I respectfully solicit orders from all who want,

MISCELLANEOUS READING. JAPANESE LADIES.

NO. 305.

I have not been among the South Sea Islanders yet, or the new Zealanders, nor even made acquaintance with the Chippewa In dians, but I can conceive nothing more elab orate in the way of tatooing than the specimens supplied by the male population of Japan, and really to see them in their ha bitual costume (ridelicet, a girdle of the narrowest possible kind), the greater part of the body and limbs scrolled over with bright blue dragons and lions and tigers and figures of men and women, some not very decent, tattooed into their skins with the most artistic and elaborate ornamentation, it is impossible to deny that they look remarkably like a race of savages in their war paint. The women seem content with the skin that nature gave them in all its varying shades of olive, and sometimes scarcely a shade at all I have seen many as fair as my own countrywomen, and with healthy blood mantling in their cheeks-that is when fresh washed and before they have painted cheek and lips, and powdered all the face and neck with rice flour until they look like painted popin jays done in pastry and white lead. When they have renewed the black varnish to the teeth, plucked out the last hair from their evebrows, the Japanese matrons may certainly claim unrivalled pre-eminence in artificial ugliness over all their sex. Their mouths thus disfigured are like open sepulchres, and and whether given to "flatter with their tongues" I cannot undertake in this my noviciate, to say, but they must have syrens' tongues or a 50-horse power of flattery to make those red varnished lips utter anything which could compensate to man or child for so much artificial ugliness. Were it not for such perpretensions to beauty. But one might certainly search the world through without be ing able to match the womankind of Japan for such total abnegation of personal vanity If this be a sacrifice offered on the shrine of conjugal fidelity, the motive is no doubt very laudable; but it leads to the inference, not altogether so complimentary, that either the men are more dangerous or the women weaker than elsewhere, since such extreme measures have been found necessary to secure the same results. Surely something less

erately making itself hideous, might have sufticed to prove the absence of all wish or design to captivate admirers.

For my part, I cannot help thinking the husbands pay rather dear for any protection or security it is supposed to bring, since if no man can find anything pleasing in a face so marred and disfigured, the husband must be just as badly off if he has any sense of beauty in him. Perhaps custom, and that deformed "thief," fashion, may have brought him to like it; but if so, where is the protection? If he can like it, so may others; per verted tastes are infectious. Of course shall be told-nay, I think I hear many excellent and exemplary English matrons saying. with a certain monitory voice, "That when the affections are engaged (often with the aid of a pretty mouth, white teeth, and wellarched eyebrows) a loving husband sees only the mind and heart in the face, and loses the individual features, and as those are worthy of love and admiration, so is his indiffer ence to the skin deep beauty of the face -his lave being something quite irrespective of such graces; and more than this, that, as a matter of experience, six months married life serves to familiarize the ugliest faces or take away the impression of the fairest." I have heard some such discourse in time past, in support of a theory or five years, and a privilege of exchange granted | which despite | all my efforts, I never could cordially accept. But loss than ever could I do so now after a few weeks' residence in Japan, where I see the principle carried out to its last frightful consequences with inexorable logic, and whatever man's sensuoss perception of the beautiful may be-and some, at least, are very unfortunately endowed that way-he must of necessity for the whole term f his (or her) existence, be condemned to take up his abode with wanton and unmiti-

than the whole womanhood of Japan delib-

gated ugliness in the face of his cherished partner. - Letter from Japan. BALTIMORE COMMERCIAL COLLEGE. FOUNDED 1852. CHARTERED 1854.
